

# Visual story for Volo VR Swings By Studio GOGO

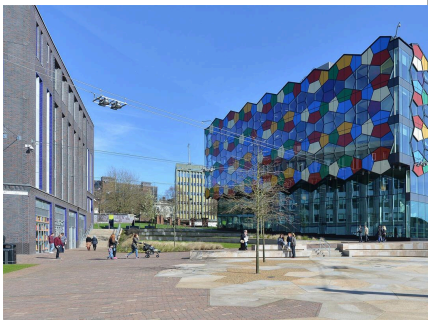

## What to Expect

Volo VR Swings are an **experience** you can take part in at the Big Feast.

**VR** means **virtual reality**, which is a digital world we pretend is real to enjoy new experiences.

This experience will be outside.  
Outside the Smithfield building.

For this experience you will be sat in a swing and wear a headset.

A video will play while you swing making it feel as if you are flying.

When you arrive at the swings there will be an appetite steward there to help you get in line.

Listen to the appetite steward and **do not go** up to the swings **until told** to go up to the swings.

You can watch others on the swings while you wait in the queue.

We will have a **wheelchair option** for the swings.

Once at the front of the queue, you will be asked to sit in a swing.

You will then be given a headset to put on. The appetite steward will be there to help.

The ride will last 4 minutes.

You will power the swing by pushing with your legs.

OR

You can control the speed at which you swing. Slow or fast.

	
	<p>You can stop at any time. Just put your hand up or ask for an appetite steward.</p>
	<p>When the 4 minutes finish and your turn is over. You will give the headset back to the appetite steward and leave the swing area.</p>
	<p>This experience is made by Studio GOGO.</p>
